AXOR UNO.

PURITY OF FORM.

AXOR Uno kitchen mixers. On the wall or standing, radical purism that reveals the perfection of elemental forms. Easily configured for a range of spaces, from wide open to confined. The standing mixer fully rotates on its axis. The wall mixer's telescopic function enables the spout to extend up to 550 mm. Dual swivel range (110° and 150°) enhances freedom of movement. CAMINO NORTE, PALM SPRINGS, CA, USA

"Our firm views AXOR as the perfect marriage between efficiency, innovation and beauty," write architects Manuel Frausto and David Weiss of PS Modern LLC. The pair are creators of the Camino Norte residence, a rebuilt home befitting the prestigious neighborhood of Old Las Palmas in Palm Springs. "In California, water scarcity is a fact of life. With AXOR, we contribute by using sustainable products that conserve water without neglecting efficiency. AXOR allowed us to create a design moment that melded perfectly with the interior and exterior environment."

THE JANE, ANTWERP, BELGIUM

A restaurant brings new inspiration to the idea of food as spiritual experience. Housed in a restored chapel, The Jane unites revelatory gastronomy with the radiance of Piet Boon Design's interiors. The dining area seats 80 in front of an open kitchen, the home away from home of The Jane's creators, multi-Michelin-starred masters Sergio Herman and Nick Bril. Where once an altar stood, today a no less devotional (and occasionally ecstatic) ritual unfolds. "I can dance behind the stove like never before," says Nick Bril, before baptizing beautiful ingredients with the AXOR Uno kitchen mixer, a font of perfection in Brushed Black Chrome.
